If it hadn't been for you and your mother, my name wouldn't have earned me into the fire and tried to commit suicide. Then I wouldn't have become like this, not really a person, not really a murderer.

Stealing someone else's forehead and even causing the death of someone's wife...

It can't be that when you guys sleep at night, you don't have a nightmare?

I actually have dreams every night, where I see my mother die a tragic death in the fire.

I can see the blood dripping from her face.

It would be better if all of you with the surname Hsu just died.
